Eyelash extensions were once a luxury only afforded to celebrities and a secret kept by stylists.. forward to today and the everyday woman can enjoy this luxury of beautiful long luscious lashes!

Here at L&BS we are experts in both eyelash extensions and lash lifts. Principal stylist Grace has trained with the best in the industry - Joy Crossingham from lash Joy.

Joy is a world renowned lash artist and multiple award winner in international lash wars. We have adopted the same method as Joy to ensure we maintain the health of your natural lashes at all times.

Applying thicker fewer lashes can give you the look your after in a short time, but they do compromise the health of your natural lashes. We don't do this.. We take the time to apply a lot more but finer lashes that give you the look you desire without stressing your own lashes.

We strive for damage & clump free eyelash extensions that can be as natural or glamorous as you like.

LASH MENU

We carry an extensive range of eyelash extensions to suit your desired look, eye shape and your natural lash growth. We use products only of the highest quality.

Premium classic 1D faux mink

Full set \$99

Every healthy lash is extended. Around 90 lashes per eye, takes about 90 minutes depending on how many natural lashes you have.

Refills

45 min \$60
60 min \$65
75 min \$70
90 min \$80
120 min \$99

Mini Set \$60

Around 50 lashes per eye, takes about 60 min. A mini set for those wanting minimal enhancement, lashes can be applied on the outer half only or scattered throughout, great for those wanting to try lash extensions.

Refills

30 min \$45
40 min \$50
60 min \$60

Lash Removal

Removal only, allow 30 min \$35
Removal before new set \$20

Lash Lift \$80

This new age lash lift lifts your natural lashes from the roots giving the appearance of longer lashes and opening your eyes. We use silicone rods instead of traditional perming rollers to give more of a lifting effect from the very base of our lashes.

Just one 20 min professional treatment is all it takes to deliver a sumptuous lash lift that is maintained even after a shower or swimming for up to 12 weeks.

This is a great alternative to lash extensions for those wanting a more natural effect without the need for refills. Commonly added to a lash lift to better define lashes.

L&BS cosmetic tattooist Grace Hanna is highly skilled at providing feather stroke HD brows & microblading.

She is certified with the world famous PHI Brow Academy.

PHI Brow Academy is one of the most sought after and global brands of cosmetic tattooing. Eyebrow feathering/ microblading involves manually etching the skin with a very fine blade and implanting hypo-allergenic pigments into the skin in the direction of your hair growth. Unlike the harsh block tattoo of the past, feather stroke tattoo (also known as microblading) mimics your natural brows to create flawless natural brows. Feather touch tattoo involves creating a soft feathered effect that can be individually customised to flatter every face shape. Gone are the days of uneven and sparse brows.. this new method of microblading has taken the world by storm and sets the standards for brow styling across the globe.

Complimentary brow consultation available with our cosmetic tattooist Grace who is available by appointment only.

BROW MENU

Feather Brow Procedure \$700

Touch Up \$200

Brow Tint

Here at L&BS we tint using Brow Henna. This henna takes the place of the traditional brow tint.. We love it because it creates a more natural & long lasting effect. We have it in 12 colours which we can blend to completely customise your brows.

Brow Henna \$25

Brow Shaping \$15

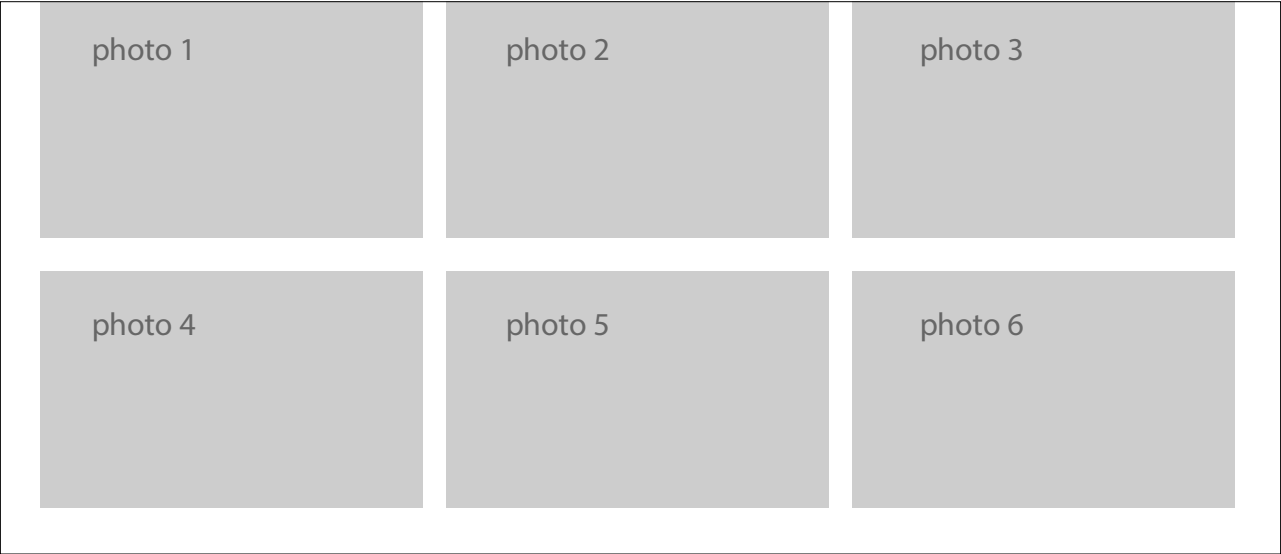

Brow Henna + Shaping \$35
